ACKNOWLEDGEMENT

I find it a very enriching experience to do my MPhil. Various people have contributed to this journey in some of the other ways. I would like to take this opportunity to express my gratitude to each one of those people. Firstly, and most importantly, it gives me immense pleasure to convey my thanks to St. Stephan hospital for their approval and St. Stephan Community Health Centre particularly Dr Joyce Vaghela and Dr Amod Kumar for extending their support during my fieldwork. Not only support but they also agreed to participate in my study and provided the important insights. My regards and gratitude to all elderly participants who shower their love and blessings throughout the process and cooperated with me by showing their trust in me while sharing their personal information.

My Research manuscript would not have been possible without the guidance of my empathetic and supportive guide Prof. T. Sundararaman. My heartfelt gratitude for his constant effort for improving my work, providing time to time feedback and never giving up on me. You have been a tremendous motivation for me to keep going and not giving up on my research even in the most critical phase of my study. I would also like to thank you for letting me know my flaws and mistakes along with the detailed explanation, which gave me the scope of learning many important research skills. At the same time, I am obliged to you for patiently bearing all my mistakes and continue encouraging me for my research work.

I would also like to express my sincere gratitude to my senior, Mr Alok Ranjan, for his unconditional support, guidance and help. I am overwhelmingly grateful for his continuous moral support and motivation until the completion of this thesis. This would not be possible without him.

My sincere regards and heartfelt thanks to Prof. P. Arokiasamy, IIPS and Prof. David Bloom, HSPH for giving me motivation to pursue the research degree and provided all the desired guidance and support.

I am indebted to dear friend Mr Kalo Sona Paul for his valuable time for helped me in learning statistical analysis (STATA) and extending his full-hearted support.
From day one, when I started my journey of M.Phil. at TISS, I thank Dr Saurabh Rai, my friend for being always there and keep assuring me that I will go through this phase successfully.

My exceptional thanks and respect to Dr Ramesh Sharma (Uncle) and Mrs Dinesh Sharma (Aunty) for being the best soul on this earth I can ever meet. I am the luckiest person to have your blessing, support and so much love. You both are a blessing to me in the form of my non-biological parents. For my every small achievement, I owe that to you both. I cannot reach so far, without both of you.

To two wonderful people Dr Pranali Khobragade and Mr Ashok Posture- Thank you both for all the support, care and concern throughout.

I extend my gratitude to Ms Arunika Agrarwal for their support, which helped me to a great extent for sustaining my research education.

To my wonderful and most special friend, Mr Kumud Ranjan, thank you. You graciously stepped in whenever I was losing hopes and demotivated, you were always there to make me hopeful again and were willing to support me while accomplishing this dream.

Special Thanks to Ms Nishtha Mishra, who showed me the attitude of never giving up on your lacunae or mistakes and keep-on-trying attitude.

I appreciate my dear ones, Ankita Siddhanta, Atrayee Sinha, Devarupa Gupta for their unconditional love and constant support during the entire period of study.

I also thank all lovely people Ms Pooja Gaikward, Chandramani Piyush, Albart for being there as a stress buster for me during this phase.

I also thank my parents for all their support and care they provided me throughout my life.

Mumbai
